

BAY HAVEN SCHOOL OF BASICS PLUS

📍 School Board of Sarasota County | Sarasota, Florida

PROJECT OVERVIEW

Bay Haven is a 30,000 sq.ft. historical, elementary school on a confined site that required a major addition and site re-construction to weave into the existing architectural fabric. The project team developed a multi-phased construction schedule on an active campus and completed the project on time for the upcoming school year. The new two-story addition includes a media center, library, music suite, classrooms, computer lab, cafeteria and commercial kitchen. In addition, the old building in the center of the campus was demolished, and in its place is a new secure courtyard used for outdoor playing, teaching and events.
