

# SAINT STEPHEN'S EPISCOPAL SCHOOL

📍 Bradenton, Florida

## PROJECT OVERVIEW

Fawley Bryant has worked with Saint Stephen's Episcopal School for the past 10 years. Designing the Sunlight Middle School Addition, Athletic Complex, and Campus Map. For the completion of the Sunlight Middle School, Fawley Bryant strategically worked within an active campus to accommodate 150 students in a distraction-free area. The 21,000 sq.ft. facility includes a large commons area for student gathering, an art lab, two science labs, a computer lab, an administrative suite and eight classrooms. The Saint Stephen's Athletic Complex includes a multipurpose field for soccer and football, and includes an 8-lane track. The stadium features up-to-date seating for 1,800 spectators, large concessions, ticket booths and restrooms. The athletic complex also includes a lighted Jumbo-tron electronic scoreboard, crafted landscaping, additional parking, and a 5,000 sq.ft. maintenance building.

“

Long before pen went to paper, Fawley Bryant demonstrated a commitment to our school by listening to our ideas, identifying our needs and encapsulating our vision.

”
