

SAINT STEPHEN'S ATHLETIC COMPLEX

📍 Bradenton, Florida

PROJECT OVERVIEW

As part of an overall masterplan, the Saint Stephen's Athletic Complex was designed as the sports hub for the k-12 campus. The 6,500 sq. ft. project includes an 8-lane track surrounding a multipurpose field for soccer and football, spacious dugouts in the reconstructed softball field, and a 1,000 sq. ft. concession building that includes ticket booths and restrooms. Up to 1,800 fans can fit in the stadium while the illuminated Jumbo Tron and scoreboard make following the game easy. A 5,000 sq. ft. maintenance building allows easy upkeep.
